

Anchor seal AN series

One piece capsule, anchor and tab seal, with seven numbers moulded in high relief on the tab. These high relief moulded numbers eliminate the possibility of alterations or forged copies and make the seal individually identifiable. Without integral or pre-assembled sealing thread. Suitable for sealing both ends of any length or type of thread, ribbon, or wire up to a strand thickness of 0.81mm. For quantities over 10,000 the capsule can be personalised in high relief on one or both sides.

Product code:
AN #010N00PP

Anchor seal AN series description

- Material Polypropylene.
- High relief numbering, without sealing thread.
- Suitable for sealing two strands of any length of material up to a thickness of 0.81mm per strand.
