

Bandseals 1N, 2N, 3NH

These plastic bandseals are of the fixed length type. The bandseals 1N and 2N have overall lengths of 18 and 21cm, with operational lengths of 16 and 19cm. They are individually identifiable by a random letters and number code. This code is injection moulded in high relief, preventing the possibility of alterations or forged copies. The 1N and 2N seals are supplied loose, not in mat form. The Bandseal 3NH has an overall length of 19cm, with an operational length of 18cm, and the numbers are hot foil stamped. This model 3NH has a tear-off strip to facilitate removal and is supplied in mats of 10. For quantities over 10,000 the seals can be personalised.

Bandseals 1N and 2N
Numbers and letters
